Hello HCA representatives,
We are pleased to fully support the proposed register 32 for Pediatric Palliative Care services to be added to the EPSDT services as stated here: https://www.hca.nm.gov/wp-content/uploads/Proposed-Register-32.pdf

We work with children with medical complexity and their families and reimbursement for these services will greatly benefit families across New Mexico. These services will be transformative to their care and well-being, and also typically result in lower health care costs for these children. We applaud the state of New Mexico for being proactive and being a model for other states!

Thank you for bringing positive change for these families.

Sincerely,
Jen Bartz
